Nuclear Medicine Communications **9**, 1013–1019 (1988)

INDEXES TO VOLUME 9

Subject index

The abbreviation (E) after a page number indicates an editorial article, (N) indicates a newsletter and (C) indicates a correspondence

Bone
Assessment of vertebral mineral content by means of a single-crystal scintillation camera, 603
Bone scan in systemic amyloidosis, 931
Bone scintigraphy in polycystic lipomembranous osteodysplasia with sclerosing leukoencephalopathy, 1005
Comparison of $^{99}Tc^{m}$-labelled MDP and DMAD bone scanning agents in patients with advanced breast cancer, 481
Dual-photon bone mineral density in the proximal femur: correlation by site, 53
Improved sensitivity in bone scintigraphy using quantitative spinal profile analysis, 631
$^{99}Tc^{m}$-labelled leucocyte imaging in active rheumatoid arthritis, 987
The case for routine bone mass measurements, 541 (E)

Brain
Direct autoradiographic comparison of $^{99}Tc^{m}$-HMPAO with ^{125}I-IMP in experimental brain ischaemia, 915

Cardiac
Accuracy of gated equilibrium radioventriculography in measuring left ventricular function in dogs, 999
A comparison of planar and tomographic imaging of the myocardium using $^{99}Tc^{m}$-t-butyl isonitrile, 375
Equilibrium radionuclide ventriculography in Duchenne's cardiomyopathy, 347
Influence of specific activity on myocardial uptake of ^{123}I-mIBG in rats, 663
Measurement of absolute left ventricular volume by radionuclide angiography: a technical review, 495
Myocardial kinetics of $^{99}Tc^{m}$ hexakis (2-methoxy-isobutyl-isonitrile) (HMIBI) in patients with coronary heart disease: a comparative study versus ^{201}Tl with SPECT, 15
Response of left and right ventricle rate indices to exercise in normal volunteers, 871
Right ventricular thallium-201 visualization in hypertrophic cardiomyopathy, 37
Stability of radionuclide left ventricular volume measurements, 117
The use of ^{111}In-labelled autologous neutrophils in imaging myocardial infarction, 707

Endocrine
Nuclear Medicine Procedures for Thyroid Disorders, 131 (N)
The plasma clearance rate of ^{131}I-Insulin in diabetic and obese patients and healthy persons, 417
The thyroid scan in Hashimoto's thyroiditis: the great mimic, 639
Thyroid screening in congenital hypothyroidism: a review of 41 cases, 613

Gastrointestinal
Detection of splenosis: $^{99}Tc^{m}$ in colloid scanning and computed transmission tomography compared, 993
Failure of washout following gustatory stimulation in Warthin's tumour, 431

Is radiolabelled sucralphate scintigraphy of any use in the diagnosis of inflammatory bowel disease?, 591
Oesophageal transit, 128 (C)
Radiolabelled granulocytes in inflammatory bowel disease: diagnostic possibilities and clinical indications, 693
Scintigraphic oesophageal clearance in diabetics: clinical usefulness, 955

Haematology and infection

Analysis of factors that may affect the speed of accumulation of ^{111}In-labelled granulocytes at sites of inflammation, 97
A review of methods of separating and radiolabelling human leucocytes, 681
Comparison of ^{99}Tc^{m}-HMPAO and ^{111}In-oxine labelled granulocytes in man: first clinical results, 435
Comparison of ^{123}I monoclonal granulocyte antibody and ^{99}Tc^{m}-HMPAO-labelled leucocytes in the detection of inflammation, 623
Granulocyte kinetics and methods of evaluating cell performance, 687
Imaging of inflammation with granulocytes labelled *in vivo*, 763
^{114}In^{m} oxine-labelled lymphocytes – therapeutic applications, 797
In vivo studies with an anti-platelet monoclonal antibody; P256, 817
New approaches to radiolabelled blood cells imaging thrombus and inflammation, 679(E)
Non-inflammatory applications *in vivo* of radiolabelled leucocytes: A review, 733
Osteomyelitis, 713
^{99}Tc^{m} hexamethylpropleneamineoxime-labelled leucocyte scanning for detection of infection in orthopaedic surgery – first results, 771
^{99}Tc^{m}-HMPAO labelled leucocytes: comparison with ^{111}In-tropolonate labelled granulocytes, 449
^{99}Tc^{m}-labelled HSA-nanocolloid versus ^{111}In oxine-labelled granulocytes in detecting skeletal septic processes, 59
Sepsis (new approaches to imaging and thrombus used at St Bartholomew's Hospital 1988), 719
The development of a clinical protocol for the radiolabelling of a mixed leucocytes with ^{99}Tc^{m}-hexamethylpropleneamine oxime, 465
The effect of various antibiotics on the labelling efficiency of human white blood cells with ^{111}In-oxine, 597
White cells radiolabelled with ^{111}In and ^{99}Tc^{m} – a study of relative sensitivity and *in vivo* viability, 725

Kidney

An experimental approach to explain some misinterpretations of diuresis renography, 283
Appropriate selection of background for ^{99}Tc^{m}-DTPA renography, 973
Background in ^{99}Tc^{m} DTPA renography evaluated by the impact of its components on individual kidney glomerular filtration rate, 545
Binding of ^{99}Tc^{m} sulphur colloid to blood components: implications in renal transplant rejection, 923
Functional radionuclide imaging of renal mean transit time and glomerular filtration rate, 85
The engymetric determination of acute functional impairment in kidney graft function caused by Cyclosporine A, 389
Urodynamics: a noninvasive screening of lower urinary tract function in children with radioisotopes, 43

Liver and spleen

Dynamic liver scanning in cirrhosis, 235
Gallbladder filling and post-ceruletide emptying in prairie dogs and rabbits, 382
Integrated dynamic image of the liver: a new dynamic study for evaluation of liver disease, 533

Intravenous administration of morphine sulfate in hepatobiliary imaging for acute cholecystitis: review of clinical efficacy, 217
Iso-intense gallium uptake in hepatocellular carcinoma: potential pitfalls in diagnosis, 309

Lung
Abnormalities of pulmonary blood flow during cold exposure in systemic lupus erythematosus, 423
Aerosol-perfusion lung scintigraphy: value of ventilation subtraction, 565
^{67}Ga citrate scanning, X-ray computed tomography and chest X-ray in the study of interstitial pneumonia in patients with AIDS, 513
Lung diseases – the use of labelled granulocytes, 703
Scintigraphy in lung cancer, 943 (E)
The influence of age on the pulmonary clearance of ^{99}Tc^{m}-DTPA radioaerosol, 965
Ventilation and perfusion imaging, 399 (E)

Oncology
Analysis of monoclonal antibody uptake in tumours, 879
A prospective imaging study of ^{131}I-B72.3 monoclonal antibody in patients with epithelial ovarian cancer: preliminary report, 347
Clinical evaluation of tumour imaging using ^{99}Tc (V)^{m} dimercaptosuccinic acid, a new tumour-seeking agent, 105
Controversies in Nuclear Medicine, 328 (E)
Effect of unlabelled monoclonal antibody (MoAb) on biodistribution of ^{111}Indium labelled (MoAb), 553
Human immunological response to mouse monoclonal antibodies in the treatment or diagnosis of malignant diseases, 903
Immunoscintigraphy in intraocular malignant melanoma, 669
Immunoscintigraphy of adenocarcinomas by means of ^{111}In-labelled F(ab')$_2$ fragments of anti-CEA monoclonal antibody F023C5, 577
Immunoscintigraphy of human ovarian cancer xenografts using a radiolabelled monoclonal antibody to human pregnancy serum-derived immune complexes, 505
Iodine-131 and indium-111 labelled avidin and streptavidin for pre-targetted immunoscintigraphy with biotinylated anti-tumour monoclonal antibody, 891
Parasternal lymphoscintigraphy using ^{99}Tc^{m}-dextran, 657
Prospects for radioimmunoimaging and radioimmunotherapy in oncology?, 867 (E)
Radioimmunolocalization and selective delivery of radiation in a rat model system: comparison of intact and fragmented antibody, 517
Radionuclide imaging in thyroid cancer, 79 (E)
The implications of patient antibody response for the clinical usefulness of immunoscintigraphy, 273
Thyroglobulin and ^{131}I uptake of remaining tissue in patients with differentiated carcinoma after thyroidectomy, 262
Uptake of ^{99}Tc^{m}-MDP in lung metastasis from osteosarcoma: clinical and animal studies, 947
Utilization of tumour-sensitized ('educated') and radiolabelled lymphocytes for tumour localization, 783

Radiopharmacy
A rapid method for the preparation of ^{99}Tc^{m} Hexametazime-labelled leucocytes, 753
Automated radiopharmaceutical dispensing, 363
Future directions in radiolabelling leucocytes – their substituents and their microenvironment, 775

Investigations to determine the optimum conditions for radiolabelling human platelets with $^{99}Tc^{m}$-hexamethyl propylene amine oxime, 267
In vitro studies with an anti-platelet monoclonal antibody; P256, 813
In vivo labelling of granulocytes using ^{123}I-tagged anti-granulocyte antibodies, 745
Review of platelet labelling and kinetics, 803
Targeting of lymphocytes with ^{111}In-labelled monoclonal antibodies, 787
Technetium-labelled leucocytes using diethyldithiocarbamate: preliminary report on *in vitro* studies, 123
The use of electroimmunoassay for the determination of the *in vivo* stability of labelled proteins, 339

Tomography/instrumentation/computing
A comparison of two methods of measuring gamma camera uniformity, 69
Fourier phase parameters with possible diagnostic importance as obtained from the radionuclide ventriculograms of normal baboons with and without cardiac catheterization and under prolonged anaesthesia, 487
Stationary and nonstationary spatial domain Metz filtering, 3
Variability of ejection fraction results using commercial cardiac phantoms, 527

Vascular
Clinical studies with ^{111}In-labelled platelets, 809
Evaluation of $^{99}Tc^{m}$ mercaptoacetyltriglycine for the detection and localization of gastrointestinal bleeding in an experimental animal model, 369
Imaging and kinetic studies with radiolabelled autologous low-density lipoproteins (LDL) in human atherosclerosis, 859
Imaging thrombi with radiolabelled anti-fibrin monoclonal antibodies, 823
Imaging thrombi with radiolabelled fragment E_1, 849
Indium-111 platelet kinetics in patients with diabetes mellitus, 223
$^{99}Tc^{m}$ hexamethylpropyleneamineoxime (HMPAO) as a platelet label: evaluation of labelling parameters and first *in vivo* results, 831
The diagnosis of acute mesenteric ischaemia using $^{99}Tc^{m}$-labelled 50H.19, a monoclonal antibody reacting with platelets, 843
The use of radionuclide venography in the differential diagnosis of vena caval obstruction, 295
Use of an anti-platelet monoclonal antibody $F(ab')_2$ fragment for imaging thrombus, 647

Miscellaneous
British Nuclear Medicine Society 16th Annual Meeting, 141 (E)
Cationic radioisotope delivery to loose connective tissue *in vivo* using ion-exchange resin beads, 403
Clinical emergencies in the Nuclear Medicine Department, 259 (E)
Costs of nuclear medicine, 25
Dosimetry of leukocytes labelled with $^{99}Tc^{m}$-albumin colloid, 249
Editorials in Nuclear Medicine Communications, 83 (E)
Manpower, 74 (N)
Measurement of exchangeable sodium (C), 216
Nuclear medicine and AIDS, 619 (E)
Nuclear Medicine for children – a necessity or luxury?, 479 (E)
Parental administration of radiopharmaceuticals by qualified staff other than doctors, 402 (N)
Pattern of radiopharmaceutical administration to patients between 1982 and 1986, 411
The European Association of Nuclear Medicine, 1 (E)
The UK Guidance notes, 337 (E)
